

Graduate Trainee (Analyst / Quant) in the Financial / Investment Sector

Helveteiq is a Switzerland-based provider of investment solutions with European reach. Our offering allows clients to align their investment decisions with their personal values in order to ultimately drive positive change for both the world – and their earnings. Our credo is “Take control. Invest Responsibly” underpinning our core belief that investors have both the means and the power to drive a material positive impact on the society and the environment.

This is your opportunity to get prepared for a career in the finance / crypto sector.

Trainees gain valuable working experience and the chance to work on meaningful and forward-looking projects in a team of experienced industry leaders. As a Trainee, you will be able to obtain responsibility and shape the future of our company.

Have the opportunity to:

- apply your quantitative skills in calculations / modelling / accounting / controlling
- aid in important day-to-day operations
- prepare presentations and contracts including supporting documents and materials
- do research and analysis of markets, competitors etc. (financial services / technology)
- analyze and verify business models, plans and projects
- apply general knowledge of digital media, technological innovation, financial products and crypto themes – you can apply your creativity for content creation
- help build innovative and sustainable client solutions that change the financial market landscape for the better

Furthermore, we offer flexible time management and a great location (headquarters on the shores of Lake Zürich in Pfäffikon SZ and a representative office in Zollikon ZH) with modern infrastructure.

As a fast-growing company with ambitious goals, we are looking for new colleagues who thrive in a dynamic and performance-oriented environment with a flat hierarchy and short decision paths. Candidates should be strong team players who enjoy working in a team of highly skilled professionals and associate their work ethic with high quality standards and strong personal values and virtues.

We look for:

- A degree from a leading university in either
 - natural sciences (mathematics, physics)
 - engineering
 - computational science
 - business or economic studies (with proven IT & mathematical competence)
- Strong analytical, quantitative and computer skills
 - proficiency in Word, PowerPoint and Excel
 - preferably programming skills
- Entrepreneurial mindset and affinity for financial and blockchain topics
- Strong verbal and written communication skills in German and English
- Passion for excellence and focus on detail
- Ability to work reliably and well under pressure

We look forward to receiving your application at info@helveteiq.com!
