

## Helveteq Announces Leadership Transition

Helveteq is pleased to announce the appointment of Cosimo Donati as its new CEO, succeeding Christian Katz, who will step down to focus on his other professional commitments.

Christian's leadership over the past three years has been instrumental in establishing Helveteq as a leading Swiss issuer of ESG-transparent investment products. He will remain with the company as a Senior Advisor, supporting Cosimo and the team through the next phase of Helveteq's growth, while continuing to serve on multiple boards.

Cosimo brings extensive experience from his time as CEO and founder of Leva Capital Partners, a private markets platform he led for over five years. An alumnus of the University of St. Gallen and the National University of Singapore, his proven track record in capital markets and business innovation will be instrumental in driving Helveteq's continued growth.

Helveteq is a leading Swiss issuer of ETPs, nETPs, AMCs, and other structured products, offering securitization solutions for traditional securities, digital assets, and alternative investments through its white-label platform. The company recently partnered with Lend to securitize Swiss mortgages. In 2022, Helveteq became the first to issue carbon-neutral ETPs on Bitcoin and Ethereum, and subsequently launched Switzerland's first multi-barrier reverse convertibles on cryptocurrencies. With an open platform of over 20 partners, Helveteq is committed to efficiently securitizing investment ideas and portfolios.

Helveteq sincerely thanks Christian Katz for his outstanding leadership and the pivotal role he played in shaping the company's success. As Helveteq welcomes Cosimo Donati as the new CEO, the company looks forward to an exciting new phase of innovation and growth. Under his leadership, Helveteq will drive innovation in securitizing investment solutions, remaining committed to transparency, sustainability, and delivering exceptional value to clients and partners.
