HELVETEQ 
Take control. Invest responsibly.

Investment Strategy

Helveteq's Swiss Green Gold ETP (SIX Ticker AUCO2) is suitable for ESG-minded investors who seek exposure to physical gold - the oldest form of currency and store of value still in use today.

AUCO2 is a tracker security on MKS PAMP Carbon Neutral Gold and is therefore designed to give investors a sustainable, accessible and secure solution to invest in gold.

Historical Performance

Rooted in the financial center of Switzerland, fully dedicated to positively impact society and the environment through its services and products, Helveteq is the issuer of ESG-transparent investment products. Helveteq covers a wide range of traditional as well as digital assets and operates with an outstanding international network. In 2022, the company was the first issuer of carbon-neutral crypto investment products on SIX. Helveteq offers Exchange Traded Products (ETPs) for self-directed Investors, non-Exchange Traded Products (nETPs) for External Asset Managers, and optimized capital conduits for Banks. Helveteq successfully combines traditional strengths such as excellence and universality of services with continuous innovation in fintech and sustainable finance.

Take control. Invest responsibly.

ESG Solution (MiFID2-ESG Compliance)

AUCO2 is compliant with sustainability preferences outlined in MiFID2 and SFDR Article 9 equivalent.

The gold underlying AUCO2 originates from selected mining locations and is mined and refined in a socially responsible and environmentally sensitive manner. An industry standard and reference is given by the LBMA's Responsible Gold Guidance (RGG) based on the OECD Due Diligence Guidance as well as Swiss and US KYC, AML-CFT regulations. AUCO2 goes beyond the RGG:

Environmental – The CO₂ emissions generated across the product's entire value chain are accurately measured in accordance with the internationally recognized ISO 14067 standard, independently verified and reduced. This tangible step to lower the product's greenhouse gas emissions (GHG) is certified by the «Carbon Trust», a global climate consultancy and carbon footprint expert. The carbon footprint label certification commits to a public standard, allowing companies to communicate action based on assured results. (SDG 13, 14, 15)

Social – The gold extraction relies on the highest ethical standards with respect to provenance, extraction methods and supply chain integrity as a commitment to inclusive and sustainable communities, adequate living standards, and decent work. (SDG 8, 10, 12)

Governance – RGG accredited refiners maintain an ethical business conduct including absolute opposition to corruption and bribery, encouraging governments to promote greater transparency around mining contracts and the beneficial ownership of license holders. Refineries are subject to an extensive independent audit to ensure they follow established KYC rules, defending against illicit gold entering the market, thereby reducing the sources of funds and money laundering, conflict financing and human rights violations. (SDG 16)

¹ With its judgment of 06. February 2018, IX R 33/17, the FFC (Federal Financial Court – “BFH”) ruled that the redemption of a bearer bond in fulfillment of the entitlement in-kind does not constitute a sale against payment and shall therefore not be subject to the final withholding tax (“Abgeltungssteuer”). The judges also added that the redemption in-kind is not subject to income tax either. Helveteq however, holds no accountability for the information shared in this document and all investors are advised, if need be, by consulting professional guidance, to assess the information taking into consideration their personal situation regarding legal, regulatory and tax consequences that might be invoked.

The Products do not constitute collective investment schemes within the meaning of the Swiss Federal Act on Collective Investment Schemes (CISA), as amended from time to time, and are, therefore, neither governed by the CISA nor subject to authorization and supervision by the Swiss Financial Market Supervisory Authority (FINMA). Accordingly, holders of these Products do not have the benefit of the specific investor protection provided under the CISA. The Issuer is not and will not be regulated by any regulator as a result of issuing the Products. The issuer is neither licensed nor registered with the Swiss Financial Market Supervisory Authority (FINMA).

THE PRODUCTS ARE NOT FOR DISTRIBUTION TO ANY U.S. PERSON OR ANY PERSON OR ADDRESS IN THE UNITED STATES OR IN ANY OTHER JURISDICTION TO WHICH A DISTRIBUTION WOULD BE UNLAWFUL.

The Products have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the Securities Act) or with any securities regulatory authority of any State or other jurisdiction of the United States and (i) may not be offered, sold or delivered within the United States to, or for the account or benefit of U.S. Persons (as defined in «Regulation S» under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws and (ii) may be offered, sold or otherwise delivered at any time only to transferees that are Non-United States Persons (as defined by the U.S. Commodities Futures Trading Commission). Investors are invited to carefully read the Product documentation, namely the Base Prospectus, which may be amended or supplemented from time to time, together with the relevant Final Terms prepared for a particular Product containing the full legally binding terms and conditions.
